# ABOUT PROVADA

Big agency abilities, small agency advantages...

Provada was founded in 2023 with one goal, to provide lasting creative experiences for brands. We outshine expectations and meet deadlines.

We keep people happy by doing the small things right and the big things even better. Our creative team is filled with passionate people who have honed their respective marketing crafts.

Exposure has taught us what works, but it has also taught us that there is always a better way. Our quest for a “better way” is what keeps us up at night and at the top of our field.

# OUR PHILOSOPHY

There's a method to what we provide and how we provide it...

Our method is attention to detail and significant growth doesn't happen over night. Online marketing trends come and go, and as we know, they are only great for so long.

We keep clients happy by offering our services for the long haul - sowing seeds and updating along the way, measuring growth as we go.

Marketing requires constant exposure to be truly effective, it must be well-thought-out and served. Most importantly, be precisely customized for your company, designed for your industry, competitors and customers in mind.

# OUR METHOD

## STAGE 1: DISCOVER

Evaluate. Educate. Get to know your project and objectives.

Your company is unique and so is your product or service. We'll get to know what makes you tick and what makes your customers take notice.

## STAGE 2: DEFINE

Scope. Specify. Look at all avenues and solutions.

With plenty of provided input, we'll map out a customized plan, refine our joint vision and begin to structure your action plan.

## STAGE 3: DELIVER

Design. Build. Deploy. Let the idea take root.

A plan is only as good as its implementation. We'll develop, create and perfect tangible steps of the plan and begin to move everything forward, keeping a keen focus on our objectives.

## STAGE 4: DRIVE

Our one rule: If it doesn't help you grow, cancel it.

Your time and money is too valuable to waste. That said, measurable improvement doesn't happen overnight. We prefer to partner with clients long-term, implementing strategies that produce noticeable results over time. We want to be able to notice growth.

# WEB DEVELOPMENT

Without a well-thought-out strategy you'll be lost in the crowd...

Your brand's online presence requires a good first impression. 9 out of 10 customers will seek out your company online. Thus your website will offer a first impression. It has to be a good one. We treat websites as functional pieces of art that play an essential role in your overall marketing success.

Your good website is the centre of your marketing avenue - a place where email campaigns, landing pages and social media all point. If your market is falling short, we'll figure out how, where and why.
